***Allowable Subject Matter***

Claims 5-9 allowed.

The following is an examiner's statement of reasons for allowance: The present claims recite a circuit for accelerating an initial pseudo-random bit flow having a length of  $2^{n-1}$  bits generated from a polynomial of an irreducible degree  $n$  at a first frequency, into an identical accelerated bit flow at a second frequency greater than the first clock frequency, the circuit comprising a combiner having a first input adapted to receive the initial bit flow and having an output adapted to provide the accelerated flow, a second input of the combiner being connected by a delay element to the combiner output, the delay  $t$  of the delay element respecting the following relation:  $t = ((2^l) * T_1) - T_0$ , wherein  $T_1$  represents the clock period of the input bit flow,  $T_0$  represents the clock period of the output bit flow, and  $t$  is a non-zero integer setting a decimation parameter, wherein delay  $t$  is also selected to respect the following relation:  $t = (2k+1) * (2^n - 1) * T_0$ , where  $k$  represents any non-zero integer, and where  $n$  represents the degree of the irreducible polynomial of the random sequence. The closest prior art, US 3,881,099, discloses combining a flow of bits and a delayed flow of bits to generate an output at an accelerated flow rate compared to the input, however fails to disclose the delay element and decimation parameters as described by  $t = ((2^l) * T_1) - T_0$ , wherein  $T_1$  represents the clock period of the input bit flow,  $T_0$  represents the clock period of the output bit flow, and  $t$  is a non-zero integer setting a decimation parameter, wherein delay  $t$  is also selected to respect the following relation:  $t = (2k+1) * (2^n - 1) * T_0$ , where  $k$  represents any

non-zero integer, and where  $n$  represents the degree of the irreducible polynomial of the random sequence. Therefore, the claims are allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
